**international co-production forum
for films and series for young audiences**
30 september–2 october 2024
warsaw, poland, and online

Young Horizons Industry is a co-production forum and meeting hub for film professionals who are passionate about making films and series for young audiences. It takes place every autumn as part of the Young Horizons International Film Festival in Warsaw, Poland.

The goal of the forum is simple: to help creators connect with potential partners. By bringing together projects and industry players, we are creating a space where you can exchange ideas and form partnerships.

**Stay curious and join
the Young Horizons community!**

Discover new projects

Each year, we spotlight around 20 projects at different stages of development or production. We show live-action, animated, or documentary film and series projects that are looking for co-producers and partners. After each pitching, there is a Q&A session with experts. It can help you learn more about the strong points of the project and its international potential.

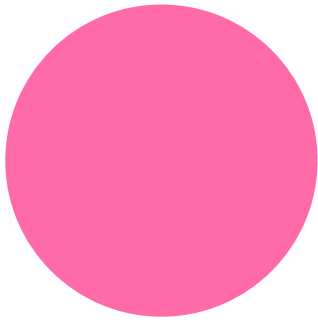

The power of networking

The forum brings together over 300 industry professionals – distributors, sales agents, broadcasters, film institutions, and creators. You can schedule 1:1 meetings, using our online platform, or with the assistance of our matchmakers, who connect you with the right people. We also have plenty of activities such as networking games, cocktails, speed dating, and training and networking programmes.

Stay on top of trends

We want everyone to leave Warsaw with new contacts as well as new ideas. Be inspired by case studies from Europe, especially the CEE countries. Discover recent market trends and exchange experiences with like-minded professionals. If you need feedback, you can book a script or marketing consultation with our experts.

Submit your project

Present your project in three pitching categories:
In-Development, Work-in-Progress, and Market Presentation.

We are looking for:

- full-length films or series for kids, teens, or young adults from around the world
- all types: animation, live-action, documentary, transmedia
- at the development, production, or postproduction stage
- with a producer on board and partly confirmed financing
- with international potential and open for co-producers

Go to industry.younghorizons.pl/submit-your-project

Take part

If you work in the film industry and you look for partners or projects, or you want to know more about the trends and latest case studies about kids' content, you are welcome to join the event. Accreditations for Young Horizons Industry will be on **sale from July 2024**.
